Jos Thoné: Good, Better, ... The Best

**Jos Thoné has only become stronger over the years.
He has a truly impressive list of achievements that continues to expand every season.
This loft combines a highly talented fancier and a really strong collection of pigeons.**

Jos Thoné's career as a pigeon fancier deserves great respect and admiration. It all started in the loft of his father-in-law Thomas Peeters, where he acted as the loft's caretaker. Jos learned a lot there and he quickly started to get ambitious himself. He had only one goal in mind: winning first prizes. It did not take long before he managed to become a fulltime pigeon fancier, probably being one of the very first professional fulltime players in our sport. Many others have tried to become fulltime players since but most have failed.

Where top results have no secret

Jos continues to be a leading example in our sport, showing great ambition and passion for our sport. He has an astonishing list of achievements that is difficult to summarise in a few words. We made a brief summary of some of his greatest achievements:

**4X WORLDCHAMPION
6X 'GOUDEN DUIF'-WINNER
5X OLYMPIAD PIGEON
2X NATIONAL CHAMPION KBDB
7X 1. NATIONAL
2X 1. INTERNATIONAL
12X 1. NATIONAL ZONE**

Successful from sprint to extreme long distance: a difficult combination

Jos is a true allrounder, capable of winning first prizes both in the shortest sprint races and the classic from Barcelona. In 2015 he won 67x 1. Prize from short distance to marathon races!

He knows how to prepare them for every race and to get the most out of them across every discipline. This is quite a challenge, especially because our sport has evolved significantly over the years. Pigeons have become a lot faster and prizes are usually won in a shorter period of time. Today's races tend to unfold a lot quicker as well.

This means fanciers have to evolve as well; they have to be one step ahead of their opponents. Training methods have improved and pigeons are expected to train longer and harder, which increases the need for a special diet and a different training approach. Darkening, lightening, total widowhood and the increasingly popular hens' races are just some of the trends that every top class fancier has to follow. Most fanciers now have a modern and fully equipped loft that enables them to adapt to the climate and

changing weather conditions. This allows them to reach their best form and to aim for specific races.

Fanciers that have failed to adapt have now been left behind. Jos Thoné is not one of them; his racing team is stronger than ever and continues to win important prizes. We take a look at his highlights of 2015:

Now is the time to give everyone a chance to reinforce their breed with some of Jos finest breeding pigeons.

Good luck!
